

FW: Request of Pesticide Application Records
Douglas Jae P to: Scott Downey, Sheila Fleming

11/01/2011 11:29 AM

Hi Scott,

I'm responding a little backward from your messages this morning, but I'm drowning a bit in email ...
Jae

Subject: Request of Pesticide Application Records

Dale and Peter,

As you know the Highway 36 Pesticide Exposure Investigation is well underway. As part of the data needed to understand and ascertain how pesticides are applied in the area under investigation, the Oregon Health Authority is requesting that you solicit the application records from applicators that you regulate. For ODF we understand that this will include landowner applying pesticides to forested areas, and for ODA that this will include agricultural applicators, as well as applications made on local, county and state roads for maintenance.

We are requesting application records for 2009, 2010 and 2011. The areas we are requesting application records include the townships of:

T15S R06W
T15S R07W
T16S R06W
T16S R07W
T16S R08W
T17S R07W
T17S R08W
T17S R09W

Thank you for your assistance in acquiring these records from applicators. Could you please give me an estimate as to when we might expect to see the records provided to us?

Regards,
Jae
